DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Berg in view of Kumano. Applicant claims in claim 1 the following: a shaver body (1, 2 of Berg), a cutter head comprised of cutter units (6, 7, 20 of Berg), one of the heads comprised of a foil type outer blade, possibly not shown by Berg, the foil cutter moves between 3 positions (20 of Berg). Thus Berg shows the material of claim 1 except that there may not be a foil cover for the movable cutter. Foil outer blades are old and well known as demonstrated by Kumano. They are an alternative to the slotted type of outer blade. One of ordinary skill in the art would know this and thus substituting a foil stationary blade for the slotted blade of Berg would be obvious.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double

patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-6 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5 of copending Application No. 10/444,240. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims are essentially for the same invention i.e. a multi-cutter razor with a cutter that moves relative to the other cutters .

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
